If this ecosystem group could operate as a consortium, what is the #1 thing SIGHPC SYSPROS would want from CaRRC group that you couldn't do on your own

- Spreading the word
 - *We have been a somewhat insular community and would like to have a broader reach*

- Discussion points
 - *What is the difference between the ACM SIGHPC SYSPROS organization and the systems-facing CaRRC group?*
 - *What does the systems-facing CaRRC group want to be providing?*

- ACM SIGHPC SYSPROS is excited to collaborate
